

# Cloud-first SD-WAN for today's Cloud-enabled business

Bigleaf provides a software-defined WAN solution built with a Cloud Access Network that enables you to ensure performant uptime for any Cloud-based technologies across all sites and users. Unlike policy-based solutions, Bigleaf auto-detects application needs and network conditions and intelligently adapts traffic in real time. With Bigleaf, you can easily provide Enterprise-grade connectivity for all of your Cloud applications, improve visibility into your internet usage, and simplify your network.

## 99.99%

SLA-backed uptime

## 24/7

Support from network  
engineers

## 100%

of Cloud, VoIP, and Internet  
traffic protected

## Drop-free

Failover keeps calls  
and apps connected

## Zero impact

On existing security

"Bigleaf's vision sets them apart — a simple, plug and play network solution that delivers Internet like a carrier but respects the traffic and your business like a true partner."

KYLE HOLMES  
President, Matrix Networks

### Intelligent software

Bigleaf makes automatic traffic routing decisions in real-time based on traffic heuristics and circuit health

### Firewall friendly

The Bigleaf edge router installs outside your firewall, so you can keep your preferred security intact

### Site-to-cloud architecture

Connect each of your sites directly to the Cloud via our privately owned backbone network

# How It Works

Bigleaf's infrastructure connects your business to any Cloud technology, using intelligent software to ensure a high-performance connection to the Cloud.

## Bigleaf's Site-to-Cloud Architecture

The Bigleaf router installs outside the firewall, prioritizing application traffic in and out of the customer's LAN

Multiple broadband circuits are tunneled together as one pathway, providing bidirectional control and visibility of all traffic

Bigleaf's Gateway Cluster connects this streamlined Enterprise-grade connection to any Cloud application

## Bigleaf optimizes any Cloud-based technology, including...

### Business Communications

- VoIP
- UCaaS
- CCaaS
- Video Conferencing

### Office Productivity

- Office 365
- Google Suite
- Remote Desktop
- CRM
- IDaaS

### Retail Management

- Credit Card Processing
- Point-of-Sale
- Inventory Management

### Industry / Supply Chain

- ERP
- Accounting
- Human Resources
